**I participated in the work.**
- I shared my thinking and contributed ideas to our design.
- I used evidence to support my ideas, asked for evidence from others, and/or suggested ways to get additional evidence.
- I used our time well and helped us stay on task.
- I contributed to the work of drawing, writing, and building.

**I made sure that my teammates were included in the work.**
- I monitored my own time spent talking, drawing, writing, building, and/or leading so that others also had a chance to participate in the work.
- I asked questions to help us understand everyone’s ideas.
- I encouraged others to share their ideas.
- I provided support and genuine encouragement.

**I kept an attitude that was helpful to problem solving.**
- I came prepared to work toward a common goal.
- I was open to changing my mind and challenged myself to think in new ways.
- I may have critiqued the ideas we were working with, but I was careful not to critique the people I was working with.
- When things did not go how we had planned or hoped, I stuck with it and learned from our failures.

Something I did that I was really proud of during this work was ... (because ...)

The hardest part about this work was ... (because ...)
